

Stream 1

Balewrap & Silage Sheet Recycling

1 Place the liner in the bin and ensure there is plenty of overhang to tie the liner off when filled.

2 Remove Balewrap and Silage Sheeting placing immediately in liner.

3 By filling the liner daily with Balewrap and Silage Sheeting, contamination is greatly reduced.

4 Tie off the filled liner, remove from the bin, set aside for collection. (Up to 200 round wraps per liner)

PLEASE NO BALENET OR TWINE

● The collection charge is \$40 per liner.

Stream 2

Polypropylene Bag Recycling

These are woven Polypropylene bags. Please keep these bags separate from Stream 1. The collection charge is \$40 per liner.

Stream 3

HDPE Drum Recycling

"TOPS OFF, TRIPLE RINSE, SQUASH"

Triple rinsing is important!

Please follow these guidelines: Chemical residues are hazardous to the collector and recycler. Please make sure you triple rinse your containers. Fit up to 100 drums in the liner when squashed.

TOPS OFF, TRIPLE RINSE, SQUASH

Please remove the paper seal from the top of the container

No oil containers will be collected

● The collection charge is \$40 per liner.

Stream 4

HDPE Drum Recovery

DRUM RECOVERY PROGRAM

THE PLASBACK SCHEME offers you the opportunity to return 100 and 200 litre drums from the Ecolab and FIL range.

In order to facilitate efficient recovery, please adhere to the following points...

RULES FOR RECOVERY

- FIL yellow drum / Ecolab blue drum.
- Triple rinsed.
- Has not contained other or hazardous products.
- Label removed.
- Original bungs/caps on tight.
- Good condition.
