

The solution to the pollution!

TUFFBOARD19 STANDARD

sheets are made from mixed plastics recycling containing polyethylene and polypropylene.

TUFFBOARD19 NON-SLIP

is available in a standard sheet with a coating on one side providing an anti-slip surface.

Sheets are made by thermally bonding pulverised plastics to produce a distinct outer layer with a foamed inner core.

Standard sizes 1240mm x 2440mm x 19mm in grey. Weight 38 kgs. Green, blue, earth brown colours available by special order.
